

ПИЗДЕЦ!

Russian as they speak it (Бес)Толковый Словарь Русского Мата

*Полюбила парня я;
оказался без хуя;
на хуя мне без хуя;
когда с хуем до хуя?*
(Russian folklore)

The following words and expressions are rude, naughty and generally not something you would say in front of your mother (this is an alternative Russian slang dictionary, after all). As the educated Russians got an extensive opportunity to mingle with criminals under the Soviet regime (especially in the many gulags) many terms from the thieves' language spread throughout the whole Russian society and should be understood, even if they are often judged not to be printable (*нецензурные выражения*). Some are mere colloquialisms but also fail to appear in standard Russian dictionaries, the latest section concerns modern Russian Internet slang (do not miss the new *krivetizator*, a tool turning proper Russian into something a geek can read). This dictionary is dedicated to making the commonly spoken Russian language and profanity more understandable for non Russians, but you should better not use them. Trust me. I shall not be held responsible for any injuries that you might well suffer if you chose to utter those words in public. Explanations are currently mostly given in standard language, not as English slang equivalents, therefore you might not be able to assess the rudeness of the words properly.

Знание – сила!
