and bear the mimeographed signature of Mark Rhoads, an army cryptanalyst. One is dated (in Friedman's handwriting) 6 Jan 1946, but it could have been typed any time after 13 June 1944, since it is simply a tidy restatement of the previous alphabet sheet, with the "alphabetic" values dropped.

### Description of Item 1609

The printout consists of a bundle, fraying at the edges, of 130 sheets of printout paper, originally part of a continuous web, but since burst into separate sheets. The sheets are 11 inches wide and 17 inches long. On the lower left edge of each sheet the notations "TABULATING PAPER
